Safecoat

Super Clean

Super Clean is a highly concentrated, all-purpose cleaner/degreaser. It is not toxic, odor free, dye free and biodegradable. It contains no phosphates, alkalines, acids, ammonia, butyl ethers, chlorine bleach, nor any chemical scents used to mask the odors caused by such harsh compounds. It will not irritate sensitive skin, nor does it give off noxious fumes. Yet it is strong enough for industrial strength cleaning chores.

Safety Clean

Safety Clean is a highly effective bath and bowl cleaner. It is generally suitable for any high moisture area such as bathrooms, kitchens, saunas, showers, and outside pool tiles and decks. Unlike most commercial cleaners, SafeChoice Safety Clean contains no toxic hazardous ingredients or cleaning agents like butyl ethers, chlorine bleach, pine oils or masking agents - so you do not have to put up with a harsh disinfectant smell. Used regularly, SafeChoice Safety Clean is excellent at controlling common bathroom odors.

X-158

X-158 is a premium quality, clear coating for prophylactic use on surfaces where mold and mildew might appear. It is not a cleaning agent, but a clear defensive sealer designed to encapsulate surfaces which would typically be subject to mold and mildew attack. It is a non-toxic, low odor coating that is ideal for unventilated, confined areas such as shower stalls, bathrooms, and saunas. It is also durable enough for roofs, air filtration systems and spa decks, countertops, walls, floors and ceilings. X-158 coating applies quickly and simply. One application lasts between 30 and 180 days, depending on the severity of the conditions.

Carpet Shampoo

SafeChoice Carpet Shampoo is an odorless, dye free rug and carpet shampoo. It is both a strong cleaner and odor remover yet safe even for the chemically sensitive. It contains no harmful chemicals like ammonia, butyl ethers, alcohols, phosphates, caustics or acids. It is not toxic, non-corrosive, non-flammable and biodegradable. It does not irritate hands or skin.

Carpet Seal

SafeChoice Carpet Seal (formerly SafeChoice Carpet Guard) is a unique sealer designed to prevent the outgassing of harmful chemicals used in carpet backing. These chemicals include such known carcinogens as formaldehyde, toluene, benzene, xylene and styrene. Carpet Seal is odor-free and, when properly applied, effectively blocks outgassing for up to five cleanings or one year.

Lock Out

SafeChoice Lock Out is designed to perform two functions: first, to seal in the outgassing of harmful chemicals found in carpet fibers, and second to help repel dirt and stains.
