Stains and Sealers

Highlighted Benefits:

- Non-toxic - no negative health consequences during installation or product use
- Ideal where indoor air quality is a must (i.e. hospitals, schools)
- No VOC's
- Great environmental alternative to traditional product

LEED Credits: Materials and Resources, 1 credit (1/2 point)

stains and sealers

Penetrating Waterstop

Safecoat Penetrating WaterStop improves water resistance and repellancy in a wide variety of surfaces, including brick walls, concrete foundations, stucco, stone and most unglazed tile. Because Safecoat Penetrating WaterStop low odor and not toxic, it is ideal for use indoors instead of a typical high solvent content sealer; yet, it is durable enough for use outdoors. It is particularly useful as a periodic maintenance coat for surfaces originally treated with Safecoat WaterShield.

Hard Seal

Safecoat Hard Seal is a multi-use, clear gloss sealer especially formulated to provide mar resistance to both low and high porosity surfaces. Because it forms a continuous membrane when applied properly it is particularly effective at sealing in any pollution or toxic chemical compounds outgassing from the surface to which it is applied.

MexeSeal

Safecoat MexeSeal is a low odor, waterbased, medium gloss clear sealer. It is suitable for use on porous interior tile or masonry surfaces where oil and water repellency are desired. It is ideal for long term protection against food, oil and water stains on residential or commercial floors. Safecoat MexeSeal is non-hazardous and non-flammable - a total replacement for high solvent content systems. SCS CERTIFIED - LEED QUALIFIED

Safe Seal

Safecoat Safe Seal is a multi-use, waterbased, low gloss sealer for highly porous surfaces such as particle board, plywood, processed wood and porous concrete. Used primarily to reduce toxic outgassing: in particular, it is highly effective at sealing in formaldehyde outgassing from processed wood such as plywood, particle board and pressed wood. Safecoat Safe Seal is virtually odorless on application and odorless once cured. SCS CERTIFIED - LEED QUALIFIED

Grout Sealer

Safecoat Grout Sealer is a clear, moisture resistant sealer for porous tile grout and other cementitious surfaces. It actually reacts with and becomes a part of the grout, increasing water resistance and minimizing the penetration of liquids, helping to prevent staining and giving a wearable, washable surface. Like all Safecoat products, it is as safe and not toxic as possible, formaldehyde free and virtually odorless, giving off no offensive chemical fumes. Dries clear without discoloration.

Safecoat: waxes and oils

stains and sealers

DuroStain

This premium quality, fast-curing flat finish, semi-transparent stain is ideal for interior and exterior wood surfaces. It promotes penetration of porous surfaces and has high adhesion for superior protection as a decorative colorant. It has excellent pigmentation stability and is a durable stain. It contains no aniline dyestuffs, no gilsonite or asphalt, no aromatic solvents and no formaldehyde. Use on: all wood surfaces. SCS CERTIFIED - LEED QUALIFIED

Water Shield

Safecoat WaterShield is a clear, versatile, controlled penetration water repelling sealer which provides an invisible barrier against water and resists oils, grease and similar liquids. It is fast drying, has excellent adhesion, and is easy to apply. In addition to sealing and providing a protective barrier against water migration, it helps to harden, dust proof and control efflorescence in masonry surfaces. It is not toxic, non-flammable, lead free, formaldehyde free, and does not contain surface contaminating silicones, making it a desirable coating for interior or exterior use. May be used on painted surfaces and may be painted over when dry. Dries clear and does not discolor.

clear finishes

Acrylacq

Safecoat Acrylacq is a clear, high gloss, water based replacement for high solvent content lacquer. It is hard and durable with superior resistance to stains, marring and fingerprint marks. Also available in satin. SCS CERTIFIED - LEED QUALIFIED

Polyureseal BP

The highest quality water-based clear gloss finish available today. Its exceptional durability and abrasion resistance, coupled with high solids, very low odor, and very low VOC, make it the clear alternative to conventional solvent and water-based polyurethanes. Also available in satin. SCS CERTIFIED - LEED QUALIFIED

AcriGlaze

Safecoat AcriGlaze is a special mixing medium and finish suitable for use even in the display, art and show fields. It is mildew resistant, odorless and dries clear. Ideal for restoring old finishes to their original brilliance, sealing and preserving painted work, faux finishing and as an adhesive for papier mache. Dries clear. SCS CERTIFIED - LEED QUALIFIED
